WELLNESS FOR MUM

Seven Seas Omega-3 & Immunity has been specifically developed to support your immune system, with Vitamin D, Vitamin C, Zinc & Selenium.

Omega-3 supports major organs in the body, helping them to function normally, such as the heart, brain and eyes. Omega-3 is essential because the body can't produce it and can only get it through outside sources such as diet and supplements. Vitamin C, Vitamin D and Zinc support the normal function of the immune system.
